Annually from June to September National Research Tomsk State University, a fully comprehensive institution (est. 1878, 2 Nobel Prize winners), offers summer schools in different subjects: from intensive language training in Russian to different skills level training in the field of biology and physics.

- Tomsk is situated in Western Siberia at the very geographical center of Eurasia: an ideal meeting point for analytical minds! Tomsk is one of the oldest towns in Siberia, Tomsk celebrated its 410th anniversary in 2014. There are many beautiful ancient wooden buildings there. With a population of half a million, Tomsk is a city of students: 100,000 students (every fifth citizen) in 6 universities.
- On 28 May 1878 Emperor Alexander II signed a decree on the establishment of the first and only higher education institution in the vast expanses from the Russian Urals to the Pacific Ocean – the Siberian Imperial University in Tomsk. The foundation of the classical university is scientific and pedagogical schools, with a predominant share of fundamental scientific research, and a combination of science, humanities, and fundamental education necessary for the educational process.

- By presidential decree, Tomsk State University is included in the State list of the most valuable objects of cultural heritage of the Russian Federation.
- In TSU old and new traditions go hand in hand. However, the main mission of the university has remained the same since the time of its foundation: to be a classical educational university of research renowned for its education system that builds the academic process on the latest research results and enhances personal growth in the cultural and intellectual development.
- For the past 136 years of its existence the university has become a centre, which attracts creative and talented people, that generates advancement in science and exemplifies the best practices in Russian higher education. For many bright young people entry to TSU was a dream that came true, a dream that enabled them to get high-quality education. It will assure their career development and success in the future. From this perspective we are well aware of our responsibility for the future of Russia.
- The University staff and students greatly appreciate the university, its traditions, its unique atmosphere of collaboration and the creativity of professors and students.
